

March 25, 2020

Dear Families on our Howell Mill Campus,

We want to inform you that last night we received confirmation that an individual at The Zaban Tower (ZT) has been diagnosed with COVID-19. This resident is not currently in the community.

The other ZT residents were informed last night, and any staff or ZT resident who has had direct contact with this individual has been screened and/or tested as a precaution. We have also notified the Jewish Tower (JT) residents, The William Breman Jewish Home (WBJH) families, and all staff on our Howell Mill campus in the unlikely event they had any direct contact.

Resident safety is our top priority. We are doing everything we can to ensure we stop the spread of COVID-19 to the rest of the Howell Mill campus. Our housekeeping staff continues to be vigilant about cleaning common areas and high touch points at regular intervals.

We are also implementing the following additional safety measures on the Howell Mill campus for a minimum of 14 days, as long as there are no new confirmed cases during that time:

- We have closed the access bridge connecting the Jewish Tower with WBJH.
- We have blocked ZT resident access to the Aviv Room hallway and the WBJH administrative offices
- We are adding a dedicated screening station for Zaban Tower residents, so they will no longer use WBJH entrance and screening station.
- We have implemented Helen's Place order/delivery to ZT and JT so residents will no longer use the WBJH elevators or have direct access to Helen's Place.

We know this is a difficult time for everyone. We will continue to provide you with updates as they become available. Please know that we are strictly adhering to all recommendations from our Medical Director and medical advisors, as well as the CDC and CMS.

Sincerely,

Harley Tabak, President & CEO
Jeff Gopen, Chief Operating Officer
